

Suggested Summer Educational Growth Opportunities for Grades 6-8

Math
Information sent home separately.
Reading
<p>Students can read books, magazines, short stories, poetry, and newspapers. Students should read a <i>minimum</i> of 30 minutes a day.</p> <p>Students can access a library of books and short stories on https://www.activelylearn.com/. Books can also be checked out from their local library. Some libraries have curbside pick-up or downloadable books.</p> <p>If you like audio books and you have an active library card, the Overdrive app has free books you can download straight to your phone or device.</p>
Writing
<p>Students should write a minimum of 20-30 minutes a day. Suggested ideas:</p> <ul style="list-style-type: none">--Journal--Write a short story--Write a letter to a relative and put it in the mail--Email a friend (or teacher)--Google “writing prompts for 5th/6th grade” and choose a topic and write for 30 minutes.--Type, edit, and publish your writing--Practice reading out loud to a friend or family member
Science and Social Studies
<p>There is a variety of educational information at https://www.khanacademy.org/ and https://ed.ted.com/</p>
